

Golf Cart Policy

(Adopted February 26, 2011)

The By-Laws Article 7.2 (B) states that the board may adopt rules limiting the number of vehicles permitted to be parked in the Common Area parking spaces. The board has adopted the following golf cart registration policy.

Beginning June 1, 2011, Edgewater Condominium Association is requiring yearly registration stickers to be attached to golf carts parked on premises, including both common and limited common areas. The golf cart registration stickers may be obtained only by unit owners from our property management company. Golf carts may not be a part of any rental contract nor may those lessees of unit owners obtain registration stickers. Only golf carts with current registration stickers are allowed on Edgewater property.

In order to receive an Edgewater Golf Cart Sticker, the owner must show proof of ownership, proof of insurance, remain compliant with the SC DMV rules and regulations at all times, even while on Edgewater property (for example: valid drivers license). The initial registration sticker will be good through December 31, 2012. Upon completion of the items listed, owners will be issued an Edgewater Golf Cart Sticker which will be placed in the lower left hand corner below the Barefoot Sticker.
